To Whom It May Concern:

Please accept this letter as my enthusiastic endorsement of VR Quest, created by Warren Black. As the community superintendent of District 31 and the former principal of a highly successful middle school, I have had the opportunity to see Mr. Black's product in action across my district classrooms.

VR Quest provides students of all ages an engaging and rigorous project-based learning model through Virtual Reality Technology. Additionally, it is aligned to science and social studies learning standards that students are expected to master. Furthermore, the unique presentation of the material builds upon the skills students must master to be considered college and career ready.

I would be happy to speak with you further about how this program is impacting the students across my district. Please feel free to reach out to me should you require additional information.

Respectfully,

Jessica Jenkins
Community Superintendent
