Dear Superintendent:

I want to thank you for your continued service and efforts towards educating our youth. Your job and the work accomplished by your team is paramount to our future success as a society. Last year I had the benefit of funding a very successful and unique VR Quest program.

VR Quest is a hands-on-learning and curriculum-based educational game design program that integrates fully-immersive virtual reality non-violent game creation and engineering into the classroom. It is used in elementary, middle and junior high schools. I was able to fund the program this past year at Valley Central Middle School with great success.

I fully support any school who makes the decision to invest in this worthwhile program. If you are contacted by Warren L. Black, CEO of VR Quest, please take a moment to learn about his program. It has changed the lives of so many youth across the State of New York and nationally.

Sincerely,

William J. Larkin, Jr.
Member of Senate
